**Comex Continuous Gold  
 Daily Chart August 25**

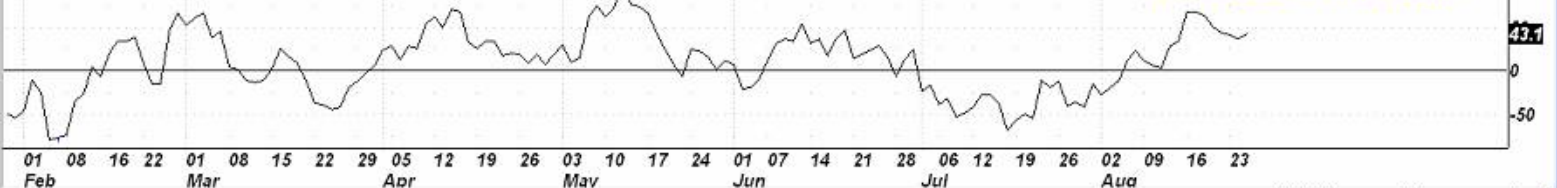

*Gold is being pulled higher by silver even in the face of a stronger Dollar.*

*Bulls need to take charge and push price through \$1245 on strong volume. If they do, the field is theirs. If not, price will drift back towards \$1220 where support should emerge.*

*If silver continues its charge higher, gold bears are going to have their work cut out for them.*
